In Confidence

Rod,

Please note the attached e-mail from Insp Waddell of the Briars taskforce.

The e-mail sets out Steve's requirements and reasons for access.

I confirm my advice to you by telephone this morning that your assistance in this matter would be greatly appreciated as it will ensure that we can validate / corroborate matters of fact.

It is also critical to us that we can access the information as soon as we can, as we are on a tight timeframe with 3838.

Regards

Luke Cornelius

Subject: Request for access to source material

Luke,

The Source Development Unit has previously provided Briars with access to transcripts relative to 3838's contacts with one of our targets, David Waters. I understand that because of the vast quantity of material supplied by this source that in order to quickly provide the transcripts that I have the unit simply did a search on the name of Waters and provided me with all contact reports containing that name. On examining that material and after speaking to 3838 it appears that we do not have all relevant source contact reports. Therefore I would be seeking an additional search be conducted to provide Taskforce Briars with all contact reports that make reference to the following:-

David Waters or docket
Peter Lalor or Stash
Bob Hodgkin
Robert Mather or Bluey Bob
Simon Sayfe
Jim Valos
Stephen Campbell
Mark Perry
Chris Gorissen

Fiona Waters
Stephen Sheriffs
Mitre Tavern
Wheat Café
Lepa RISTIVOJEVIC

In addition I believe I appear to be missing the following SCRs:- 115,116,117, meeting that took place on 5th November 2008 between source and Waters where VRC passes were discussed. Hopefully the wider search will remedy this issue.

Finally I am also seeking access to all recordings of debriefs relative to the material I have identified above. I

understand that generally only personal debriefs were recorded, however I understand that at times phone communication may also have been recorded.

I am seeking this material to complete the statement made by 3838 and to satisfy myself that the statement is based upon the best available evidence and there are no surprises down the track.

Regards

Stephen Waddell
Detective Inspector
