I asked Nicola GOBBO to enquire with Milad as to whether he will consent. I'll let you know how I go.

thanks

Rowe - can we get a DNA sample from Milad asap. This will assist with the case against Abdul KHODER - I understand you have a lot on but I was hoping to have the full analysis prior to the case conference - 9th October.

Thanks Jason

Note that these results are preliminary and therefore unchecked

Jason

As discussed at court today, I am canvassing the possibility of obtaining a DNA reference sample from Milad MOKBEL (or indeed any other person who might be of interest to this case who has not previously been excluded from the DNA detected) for comparison to 'unknown' DNA recovered from an item in case 8372/056. As you know a number of DNA mixtures were obtained in case # 8372/056 from which KHODER could not be excluded. If it were the case that a known person's DNA profile matched components of these mixtures, further statistical calculations could be performed. Minimising the number of unknown contributors to the prosecution hypothesis would be expected to produce a stronger statistical value.

Please don't hesitate to contact me if you require further information.

Regards
 Rebecca
