Mark,

Petra had a meeting yesterday with Sandy White Sandy White-C in relation to RHS 3838 (or 2958). We mentioned to him that during the committal of Paul Dale (Hodson murders), Tony Hargreaves on behalf of Dale has requested production of any informer management files relating to this witness. 3838 is witness F in this committal.

We have sought instruction from Ron Gipp Barrister representing the CCP and he has said that on the face of it, we are obliged to hand over any documents on this file that relate to the Hodson matter.

Petra requests that we be given permission to access this file and identify documents that may need to be produced. I understand the ramifications of this and discussed it at length with Sandy White I will also bring it to the attention of our Steering Committee. Once the documents have been accessed we will negotiate any production (redacted or otherwise) with Ron.

Could you give this request your earliest consideration please.
