I am thinking outside the square.

If 3838 was called to an [REDACTED] [REDACTED] with respect to her conversation last night, would she ever be a "reluctant witness"

We would need to sit down to discuss how this could be done without burning her.

I found out from Rod. I remember him now he is a drunk.

I have just left a message on [REDACTED] Sandy White-O phone. I briefed Rod with respect to last nights meeting with 3838 and Dkt.

I have told him he is not to tell OPI and he has given me an undertaking.

He has spoken with Simon Overland about the possibility if they go for dinner next week, as to whether a LD can be installed.

I have expressed to Rod, it was my understanding this was out of the question, but I believe Simon is going to ring <sup>Sandy White-C</sup>

Heads up only.
