Thursday 28 - August.

Hey Joey.

How's things buddy? as good as they can be I hope, as for me I'm fine.

Last night I received your letter - dated 26/8 - with the computer quote attached - thanks heaps for that.

I never received the letter - re Poem DGB you sent me - I don't know why that is - I told you she's an evil cunt, she's a no good dog plain & simple. I firmly believe the Police have something over her, they send her into people to get them to roll, she know how I feel about her, as I've made it clear. I told her she's no good, & I pointed out why I say that, she virtually agreeded with me - so what can I say.

I heard she was running you down - don't worry - no-one takes any notice of her - & those who do - are no good themselves.

I had a really good visit last Sunday - contact - with Dhakota, my mum & Stacey, we had it in the big room - not the box visit cubicle. It's 100 times better in the big room - Dhakota loved it. Life would be that much easier if they just gave me contact visits every week for 2-3 hours, it would make me, Stacey & my family all happy.

I've put in an order for my computer - but I still haven't got my quote back as yet, maybe I'll just order the computer quote you sent me - I know they can get that, so that might hurry things up a little bit.

There's not really much else to add, so I suppose I'll leave it there for now, & hopefully I hear from you again soon.

Best wishes.
Your friend always - Carl
