Dear Commissioner Redlich QC,

IBAC Report concerning Victoria Police handling of Human Source code name 3838

I refer to my previous letter dated 27 September 2018 within which I advised that the Victoria Police Kellam Report Review Panel determined that no breaches of discipline were found to have been committed by Victoria Police members (who were in management roles in the Source Development Unit (SDU)) as a result of the matters raised in the Kellam Report.

Further to this, I wish to advise that further to the total of 14 Victoria Police members considered as part of the Kellam Report Review Panel, a total of four additional Victoria Police members referenced in the Kellam Report remain as serving members. All others have exited the organisation. All save one of these members have progressed in their careers to attain higher police ranks, such increase in status requiring a probity check to be conducted. The remaining member has progressed in rank from Detective Senior Constable to Leading Senior Constable. I note that none of these members were direct managers of the SDU.

Given all the above, and for the reasons previously outlined in my letter of 27 September 2018 and previous correspondence, including the passage of time; they hold positions of responsibility and over a period of years their conduct has not presented any issues of negative concern, it is not intended that any further action will be taken in relation to these matters.

Should you have any further related queries, please contact me on (03) [REDACTED]

Yours sincerely

Shane Patton
Deputy Commissioner
17 October 2018
