### 5. Career Development

- Career progression hard to get out if stay too long
- Temporary duties Operational experience what command and the TPU want to see.
- Maximum Time In Position MTIP downside 3 positions offered.
- if wanted DDI GLOW and D/Supt BIGGIN can follow up.
- PTC application upgrading process need to submit application to obtain upgrading.

- Burn out of high risk/ high maintenance HS.

- Discussed Anderson-DS - on completion of leave he is intending to take off without pay. Advised that Anderson-DS can make an application to be detached from SDU Position, after 12 months SDU can make application.

# 6. Tactical Intelligence Operatives (TIO's)

- Request for TIO or support staff
- Focus on other associates, who are potentials.
- Less administration/ data management
- Used for other purposes -

#### 7. Information Technology

- With the introduction of Interpose stopped hand delivering documents . Exception –
- Laptops C drive not secure or encrypted No diaries or other HS documents to be stored on same. To use I drive instead.
- I drive to store diaries and other HS documents on same.
- USB sticks encryption BITS hard ware catalogue not signed off yet still a risk even with encryption.
- Need more datacards to access I drive. Currently have 5 require another 5 datacards for when not in the office - New plans which are cheaper – DDI GLOW requested an Issue Cover Sheet for new data cards – to be prepared for by Fox-O

#### 8. Source Recruiting Teams in Regions

- New pilot being introduced in Region 1 and O/R's
- Commences in one week.
- sandy White-o and Glen OWEN to attend a meeting with Region 1.
  Head Quarters
- Difficult to ensure not managing High Risk HS.
- HSMU can manage the Interpose, but not on the ground management.

## 9. Management of High Risk / High Management HS.

- [<u>"</u>\_\_\_\_\_
- 3838 commenced in Sept 2005.
- HSMU 3838 was allocated "Supergrass" status and not on HSMU database. Envelope registration.
