

Purana Team Structures 2003-2009

CAVEAT

This workbook lists the located Purana Taskforce team structures from 2003 to 2009.

Team structures for each year were constructed from multiple squad profiles saved in Purana Archives.

The structures in this spreadsheet are a snapshot in time and are not necessarily representative of the full extent of members in Purana across any calendar year. Additionally, members moved teams within Purana and were seconded in and out. For example, someone in the Crime 604 team in December 2007 may not have been in Crime 604 in May 2007.

The formats for each year are presented slightly differently, because they were taken from documents which varied from year to year. In some cases, members working on particular Operations have not been able to be identified and are listed according to the teams they worked in.
