Subject: RE: Civil lit - access to Petra Steering Committee minutes

Hello Emmett,

As an aside to this part of the matter, we (counsel, Fin and I), believe you would be the right frontman at the mediation hearing for this on probably 11 August? We need a high profile sworn member who was not really involved in order to demonstrate our commitment and who has an understanding of how to work through such an issue. We thought your signature on a football might be the closing stake!!!

We would go through a comprehensive briefing process. Fin and I will be involved with the necessary area experts available etc. Counsel would obviously be leading the negotiation.

For discussion.

Regards

Peter

Subject: FW: Civil lit - access to Petra Steering Committee minutes

Gents,

Discussions took place this afternoon between Fin, Peter Lardner, Doug Fryer and myself regarding the below request. Unless Civil Lit have an urgent need to access the relevant documents before Monday's BOM meeting (@ 4 PM on D7), I propose that this request be discussed at that time together with any conditions under which any documents are to be provided (if that is the BOM's decision). It may be appropriate for Peter Lardner attend the meeting to discuss this matter.

Please advise only if you have a different view to my proposal.

I will be on RL on Monday however Jeff Pope returns from his RL then and from that time he takes over the Petra/Briars Coordination role.

Thanks,

Emmett

Hi Finn, have just been speaking with Peter Lardner and he advises you have authorised for civil lit to access the Petra Steering Committee "minutes" / notes / updates to further the writ by Nicola Gobbo. It is Peters intention to photocopy relevant sections of the committee documents and retain a copy. Further I would facilitate this access. Could you please confirm that this is your decision and for me to assist? Once advised I'll provide the assistance tomorrow

Thanks

Doug
